

Cybersecurity Platform, Services & Solutions

Built for MSPs & Modern Organizations

Strengthening Compliance with EDAO Group

Your Cybersecurity Partner for Audit Services

In financial audit services, compliance is the cornerstone of trust, and EDAO Group delivers cybersecurity solutions that help firms meet stringent standards, safeguard sensitive data, and produce secure, compliant audit reports.

Cybersecurity

Continuous monitoring, vulnerability assessment, and incident response to keep your infrastructure secure and audit-ready at all times.

Compliance

Automated checks aligned with ISO/IEC 27001, NIST, PCI DSS, CIS Controls, HIPAA, GDPR, and more — ensuring your processes meet global standards.

Brand Protection

Safeguard your firm's reputation with proactive threat management, data integrity controls, and transparent incident documentation.

Mergers & Acquisitions

Cybersecurity due diligence and risk assessment to support secure, compliant M&A transactions in the financial sector.

Competitive Analysis

Gain strategic insights into your cybersecurity posture relative to industry peers and emerging threat landscapes.

Legal

Documentation, records, and compliance evidence required to satisfy regulatory audits and legal obligations with confidence.

Compliance-Focused Cybersecurity Solutions

EDAO Group keeps financial audit firms perpetually audit-ready through five core cybersecurity service pillars.

Continuous Compliance Monitoring

Automated alignment with ISO 27001, NIST, PCI DSS, HIPAA & GDPR.

Vulnerability Assessment & Attack Surface Management

Real-time vulnerability detection across on-prem and cloud.

Audit-Ready Reporting

Clear reports giving auditors full visibility into your security posture.

Data Integrity and Confidentiality

Encryption and access controls to keep financial data compliant.

Incident Response and Forensics

Fully documented breach response that meets audit requirements.

Why Partner with EDAO Group?

- **Compliance Expertise:** Deep knowledge of global and regional standards ensures your audit reports meet the highest levels of security
- **Proactive Cybersecurity Approach:** We continuously strengthen your infrastructure to keep it audit-ready at all times.
- **Integrated Reporting Solutions:** Our compliance reports simplify the audit process and give you peace of mind at review time.

The screenshot displays a dashboard titled 'Your inventory' with a table of assets and a summary of key metrics. The metrics are: Risk Score: 850, Exposure: 5, and Incidents: 351. The table lists assets with columns for Name, IP, Recent Type, and Location. A sidebar on the right shows a list of vulnerabilities with counts and severity levels.

Name	IP	Recent Type	Location
192.168.1.10	192.168.1.10	OSVNC	United States
192.168.1.11	192.168.1.11	OSVNC	United States
192.168.1.12	192.168.1.12	OSVNC	United States
192.168.1.13	192.168.1.13	OSVNC	United States
192.168.1.14	192.168.1.14	OSVNC	United States
192.168.1.15	192.168.1.15	OSVNC	United States
192.168.1.16	192.168.1.16	OSVNC	United States
192.168.1.17	192.168.1.17	OSVNC	United States
192.168.1.18	192.168.1.18	OSVNC	United States
192.168.1.19	192.168.1.19	OSVNC	United States
192.168.1.20	192.168.1.20	OSVNC	United States

The EDAO Group dashboard provides full visibility into your inventory, risk scores (850), exposure (5), and incidents (351) — with real-time threat triage and cloud network scan results to keep your compliance posture transparent and defensible.

Trust EDAO Group to secure your financial audit services, so you can focus on delivering top-tier compliance results.
