

# Cybersecurity Platform, Services & Solutions

Built for MSPs & Modern Organizations

## One Platform. Total Cyber Protection. Unlimited MSP Growth.

EDAO Control Hub is a unified, multi-tenant MSP platform - manage every client's cybersecurity from a **single pane of glass**. **14-day trial ready**: let prospects experience real threats before they commit.

## Four Integrated Services, One Platform

### Network Management

Real-time monitoring, alerts, and device health across all managed environments.

### Asset & Patch Management

Automated patching and full asset visibility - close the #1 ransomware entry point.

### Threat Protection Suite

Email Security (Checkpoint), Endpoint Security (SentinelOne + MDR 24/7), Identity Protection, External Footprint, Dark-web Monitoring, Cloud Data Protection, Phishing Simulation & Awareness Training).

### Vulnerability & Exposure Management

Vulnerability Management, WebApp Scanning, Cloud Security, Operation Technology, Attack Surface Management, Attack Path Analysis, Identity Exposure.

# Why EDAO Control Hub?

## No More Tool Sprawl

One platform, one login - Network, Assets, Threats, and Exposure all integrated. Zero vendor juggling.

## Turn Risk Into Revenue

100 prospecting reports expose vulnerable SMBs. 14-day trials convert intelligence into closed deals.

## Stand Out From Break-Fix MSPs

White-label platform, alerts, and reports - deliver branded cyber outcomes that raise switching costs.

## Scale Coverage, Not Costs

Automated detection and reporting lets your team protect more clients per analyst.

## MSP Partner Bundle - Start Delivering Cyber Today

For MSPs at every stage - everything you need to deliver, brand, and grow a cybersecurity practice from day one.
